

Optional Travel Protection provided by Travel Insured International

You have the option to purchase Travel Protection through Travel Insured International. Plans help protect you and your travel investment and help provide coverage for unexpected circumstances. Plans will be purchased on an individual basis, and are non-refundable after the 14-day free look period. The premium is based on trip cost and traveler age, and below is a brief summary of the coverage:

- Accident and Sickness Medical Expense coverage is primary (pays for covered expenses without regard to other insurance or coverage that you may have)
- Medical Evacuation and Repatriation
- Pre-existing Medical – you are eligible for Pre-existing Medical Conditions coverage if you purchase the plan within 21 days after your initial trip deposit and are medically able to travel at the time of purchase.
- Broadest Trip Cancellation/Interruption protection
- Trip Delay and Missed Tour or Cruise Connection
- Baggage Protection
- 24/7 Customer Care and Expanded Travel Assistance
- Underwritten by United States Fire Insurance Company

For a complete description of coverage and to see all the covered reasons for cancellation, please call 630-377-5840 or e-mail travel@intertravcorp.com

IMPORTANT: There is an optional CFAR (Cancel For Any Reason) add-on available at a higher premium. This option allows for cancellation for any reason, not just a “covered” reason. Should you purchase this option and cancel under this option, you will be reimbursed at 75% of the non-refundable trip cost. ***This option MUST be purchased with your initial deposit, so please contact Mary for a quote prior to sending your reservation and deposit.***

If you would like a quote, please email the following information to travel@intertravcorp.com

1) Names and dates of birth for all travelers

2) Address(es) for all travelers

3) Tour choice and cost per person

* Please note, once flights have been booked, we can add this cost to be covered in case of cancelation, however this will result in a higher insurance premium
